GUEST FACULTY
Sonia Szylik, MD
Director of Regional Anesthesia
North American Partners in Anesthesia, Mid-Atlantic Region, Fairfax, Virginia

Mitchell Fingerman, MD
Division Chief and Fellowship Director, Regional and Ambulatory Anesthesiology
Associate Professor of Anesthesiology, Washington University School of Medicine, St. Louis, Missouri
Immediate Past President, Missouri State Society of Anesthesiologists

Philip R. Corvo MD, MA, FACS
Chairman of Surgery and Director of Surgical Critical Care, Saint Mary’s Hospital, Trinity Health of New England, Waterbury, Connecticut
Governor-at-Large, American College of Surgeons Founding President, Connecticut Surgical Quality Collaborative

Russell Wagner, MD
Vice Chairman, Department of Orthopedics
Orthopedic Program Director, John Peter Smith Hospital, Fort Worth, Texas
Past President of the Tarrant County Orthopedic Society

James Tucker, RN, MBA
Regional Chief Quality Officer at Trinity Health of New England

Susan Bear, PharmD, BCPS,
Carolina Health Systems

STAFF
Rebecca Devine, RN
Course Manager
Kelly Littler, RN
Assistant Course Manager

SYMPOSIUM REGISTRATION COST
• Anesthesiologists & surgeons: $600.00
• CRNA’s: $400
• Administrators: FREE
• Pharmacists: $200.00
• Fellows & Residents: $100.00
• “Early Bird” Rate: 15% OFF registration cost if you register before 8/1/18 (May not be combined with “Envison18” coupon)

ACCREDITATION
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through The University of North Texas Health Science Center. The University of North Texas is accredited by the ACCME to provide continuing medical education for physicians. This event has been designated for up to 7 CME credits. This event has also been awarded prior approval by the AANA for CE CRNA credits and by the ACPE for Pharmacy credits.

QUESTIONS
Please contact Course Manager Rebecca Devine at 585-329-6021 or info@ssraonlinecme.com with any questions.

ENHANCED RECOVERY AFTER SURGERY
MULTIDISCIPLINARY SYMPOSIUM
WITH A FOCUS ON THE ROLE OF OPIOID SPARING REGIONAL ANESTHESIA TECHNIQUES

SATURDAY, SEPTEMBER 15, 2018

UNIVERSITY OF NORTH TEXAS HEALTH SCIENCE CENTER
1000 MONTGOMERY
FORT WORTH, TEXAS 76107

**SYMPOSIUM OVERVIEW**

The Enhanced Recovery After Surgery Multidisciplinary Symposium is designed to meet the demand of the anesthesia and surgical communities, to learn how to implement successful ERAS programs for orthopedic, colorectal, and breast surgery with a focus on the role of ultrasound guided regional anesthesia and multimodal analgesia.

Dr. Bowling and Teames, the nationally recognized co-moderators of the symposium, have led and developed successful ERAS programs, and understand that implementation of an ERAS program requires a multidisciplinary team approach and a goal-oriented functional recovery program. A lack of collaboration between surgeons, anesthesiologists, administrators, and pharmacists, in addition to an absence of appreciation for the critical role of opioid sparing anesthesia and analgesia, are common stumbling blocks for ERAS programs. This conference will teach participants the tools needed to overcome these obstacles to ensure successful program development.

**FOCUS**

The Enhanced Recovery After Surgery Multidisciplinary Symposium is designed to provide high quality regional anesthesia training in the techniques of ultrasound guided nerve blocks and regional anesthesia program development in the context of Enhanced Recovery After Surgery (ERAS).

**TARGET AUDIENCE**

Anesthesiologists, Surgeons, CRNAs, Nurses, Administrators, Pharmacists, Fellows, Residents, and Students

**EDUCATIONAL METHODS**

- Comprehensive lectures by nationally recognized key opinion leaders in ERAS program development
- Multidisciplinary panel discussion
- Specialty specific break-out sessions
- Small groups skill based ultrasound nerve block training on models and inanimate phantoms

**EDUCATIONAL OBJECTIVES**

After attending the symposium, all participants should be able to:

- Understand the role of ultrasound guided nerve blocks and multimodal analgesia in ERAS programs
- Describe the indications, contraindications, and complications of common nerve blocks
- Learn the techniques to perform ultrasound guided nerve blocks used for anesthesia and analgesia in colorectal, breast, and orthopedic surgery

**Surgeons:**

- Understand the principles of ideal surgical ERAS guidelines for colorectal, breast, and orthopedic surgery

**Administrators:**

- Understand the role of the administration in providing support to the stakeholders to facilitate the success of ERAS programs
- Learn and understand how properly constructed ERAS protocols can improve patient care, increase patient safety and satisfaction scores, and improve income.

**Pharmacists:**

- Recognize the pharmacy does not and cannot function in a silo and plays a critical role in ERAS program success by supporting the multidisciplinary team

**COURSE DIRECTORS**

- Theresa Bowling, MD
  Director of Regional Anesthesia, Integrated Anesthesia Associates Fairfield Division
  Assistant Professor of Anesthesiology, St.Vincent’s Medical Center, Bridgeport, CT
  President and Founder, SSRA

- Richard S. Teames, MD
  Director of Regional Anesthesia, John Peter Smith Hospital, Fort Worth, TX
  National Clinical Director of Regional Anesthesia, Envision Physician Services
  MAJ, 94th CSH, MC, USAR
